

Dementia Education/ Training for Aged Care Providers

Dementia Canterbury is a specialist provider of dementia services with an emphasis on cutting edge education.

We employ two educators, both registered health professionals , with extensive experience in the field of dementia, and in the aged care sector.

Together they bring their combined specialist knowledge to deliver customised sessions tailored to the particular needs of any aged care provider/environment.

As the first organisation of its kind in New Zealand, Dementia Canterbury has a long history of delivering education to the aged care sector and provides on average over 60 sessions per annum throughout the community.

Sessions can be arranged to meet the varying needs of staff, volunteers, residents and families.
